FIRST MORTGAGE BONDS

OF THE

CENTRAL

Pacific R. R. Company.

This Company is constructing under the patronage of the

U. S. Government,

the Western end of the

Great National Railway across the Continent.

The line will extend from Sacramento, California, across the Sierra Nevada to the California State line, traversing the richest mineral portion of the Pacific Coast, and thence through the Great Mormon Settlement at Truckee, to the vicinity of Salt Lake City.

It forms the only Western link of the only route to the Pacific which has received the sanction and aid of the Government of United States Bonds.

The road is already completed, equipped and running 40 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been actually effected.

The FIRST MORTGAGE BONDS of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

FIRST. The rate of interest is SIX PER CENT. IN GOLD, payable semi-annually in the City of New York.

SECOND. The Principal is payable in GOLD at maturity.

THIRD. The cost of the Road, NINETY-FIVE PER CENT. and accrued interest, is TEN PER CENT. less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

FOURTH. The United States Government provides nearly half the amount necessary to build the entire road, and looks only to a small percentage on the future trade for repayment.

FIFTH. Owing to the liberal provision accompanied with Exclusive Grants of Public Lands, by which the Government secures this great national enterprise, its success is rendered certain, and its financial stability is altogether in 10 per cent of the contingencies which attend ordinary Railroad enterprises.

SIXTH. The Security of its FIRST MORTGAGE BONDS is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

SEVENTH. The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, rendering the uninterrupted payment of the interest absolutely certain.

EIGHTH. At the present rate of Gold they yield nearly 8 1-2 Per Cent, per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent., and accrued interest (in currency,) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes, or other funds current in this city, and the Bonds will be forwarded to any address by Express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive prompt attention.

THE UNION PACIFIC RAIL ROAD CO.

Are now constructing a Railroad from

OMAHA, NEBRASKA,

westward to and the Pacific Ocean, making with no connections so unbroken line

Across the Continent.

The Company now offer a limited amount of their

First Mortgage Bonds

having thirty years to run, and bearing annual interest, payable on the first days of January and July, in the City of New York, at the rate of

SIX PER CENT IN GOLD,

AT

Ninety Cents on the Dollar.

This road was completed from Omaha 246 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company have now on hand sufficient iron, ties, etc., to finish the remaining portion to the eastern base of the Rocky Mountains, 424 miles, which is under contract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omaha to its western connecting with the Central Pacific, now being rapidly built eastward from Sacramento, early during 1870.

Means of the Company.

Estimating the distance to be built by the Union Pacific to be 1,867 miles, the United States Government issues 16 Sol per mile, thirty-year Bonds to the Company as the work is finished at the average rate of about $48,000 per mile, amounting to $64,000,000.

The Company are also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 acres of land to the mile, amounting to 20,000,000 acres, estimated to be worth $30,000,000, making the total resources, exclusive of the capital, $124,000,000; but the full value of the lands cannot now be realized.

The authorized Capital of the Company is one hundred million dollars, of which the million have already been paid in, and of which it is not supposed that more than twenty-five million at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, exclusive of equipment.

Prospects for Business,

The railroad connection between Omaha and the Pacific now completed, and the earning of the Union Pacific on the portion already finished for the first two weeks in May were $111,000. These earnings are the net proceeds and will much more than pay the interest on the Company's bonds, and the through business over the only Pacific railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds,

The Company respectfully submit, that the above statement of facts fully demonstrate the security of their bonds, and as additional proof they would respect that the bonds now offered are less than one million dollars on 537 miles of road, on which over twenty million dollars have already been expended; over 300 miles of this road the cars are now running, and the remaining 181 miles are nearly completed.

At the present rates of premium on gold the six per cent bonds pay an annual interest on the present cost of

Nine Per Cent,

and it is believed that on the completion of the road, like the Government Bonds they will go above par.—The Company intend to sell but a limited amount at the present low rates, and retain the right to advance the price at their option.

No. 1.

THE CHINGAROHA

ANTI-NERVOUS

SMOKING TOBACCO !

The CHINGAROHA TOBACCO grows from the rich soil of the "ORIENT," and is possessed of a peculiarly delicious flavor entirely unknown to the tobaccos of all other climes. But its unprecedented popularity has sprung from the fact of the entire absence of that deadly poison, Nicotine, which permeates every other tobacco, and which is the one and sole cause of the distressing nervous diseases, dyspepsia, &c., which most invariably, soon or later, follow the indulgence of the pipe and cigar. At the recent analyzation of tobacco from all parts of the world, at the Academy of Sciences, in Paris, the renowned Chemist M. Lamoureux, declared that while European and American tobacco contained fully eight per cent. of the poison, Havana tobacco from two to five per cent., of Nicotine, the CHINGAROHA did not contain one thousandth part of that deadly poison, a drop of which, extracted, will destroy life.

Our agent at BOMBAY has shipped his large quantities of the CHINGAROHA during the past two years, and although we have been pressed to supply the demand for this delicious luxury to the veteran smoker, yet we are now prepared to offer it in unlimited quantities, at a price much lower than some American tobaccos of a far inferior quality.

A connoisseur has but to smoke the American tobacco or cigars, which are invariably chemically flavored, to be disgusted with the medicinal taste which pervades tobaccos, unbearably coating in the mouth, and in time seldom fails to shatter the nervous system.

The natives of the "ORIENT" smoke the Chingaroha from morn till night, from youth to age, and are happily unconscious of the wild, distressing fire which coursers through the veins of the inhaler of the fumes of tobacco containing Nicotine.

We invite every lover of the weed to try the Chingaroha, and guarantee unprecedented pleasure in its delicious flavor. Sold everywhere at $1, a pound.

NEWPORT DAILY NEWS.

THURSDAY, June 27, 1867.

Gen Santa Anna and the United States.

After all our efforts to keep clear of entanglement in the Mexican difficulties, we have come near to a rupture through the mischievous agency of Santa Anna, and it is not certain that we have yet escaped it. The action of the American and English naval officers on the coast of Mexico, in preventing his landing in that country greatly disturbed his equanimity and that of his partizans among the Mexicans. In addition to the account of that affair which has already been given, another is now presented from Mr. Gedbils, one of his personal suite, who relates, from his side, the occurrences at the time of his detention and subsequently.

After the departure of the boat from the Virginia carrying Santa Anna to the Tacony, she soon arrived alongside the latter vessel, where Capt. Rowe offered the General his own stateroom, who, previous to accepting the hospitality, demanded to know why he was taken from the Virginia and held as a prisoner, there being peace between Mexico and the United States. He was assured that he was not a prisoner, but the action was taken to prevent bloodshed in Vera Cruz.—After much conversation in which Santa Anna continued to protest against the proceedings they separated on no friendly terms, the Captain offering his guest his own bed to sleep in.

The writer further states that Gen. Santa Anna passed nearly the whole night sitting on the chair, and would accept nothing that was offered him. The next day at 10 A. M. an officer told him that he could re-embark on the Virginia, which was then coming along, and that he could not return to Vera Cruz, although they expected him there, but could go to Havana, or any place in the United States. The General again mildly protested against the violence with which he had been treated, announcing that he would inform the Government at Washington, asking for satisfaction, and should not omit to publish the scandalous proceedings, and as the Virginia was then alongside, embarked immediately.

At 12.30 on the following day the Virginia left her anchorage at Vera Cruz, and at 1 o'clock the General was transferred from the Tacony to the Virginia, which was to call at Sisal on her way from Vera Cruz to Havana to discharge freight, where they arrived on the evening of the 11th, dropping anchor.—Soon after a number of armed launches were seen heading toward the steamer, and an official who came on board demanded that Gen. Santa Anna be delivered to him. Capt. Deaken responded that he would not do so, as Gen. Santa Anna was merely a passenger, besides having been placed in his charge by a superior officer, the commander of the Tacony, to take him to any place he should desire to go. Capt. Gomez, commanding the squadron, sent word that if the General was not delivered he would be under the necessity of firing into the Virginia, getting his guns into position, three boats getting near the steamer. Captain Gomez again sent word that if the General would not be delivered within an hour he would commence the bombardment. The purser of the steamer went to see Capt. Gomez, explaining under what circumstances the General was on board, and the consequences of firing into an American vessel. Capt. Gomez replied that he had nothing to do either with Capt. Rowe's orders or his government, and that he would act as he thought best, and shortly after a boat with about fifteen soldiers came alongside and by main force dragged Gen. Santa Anna and his Secretary into the boat, notwithstanding the remonstrance and protest of Capt. Deaken. When the Virginia left Sisal, the report was current that Santa Anna would be shot on the following day."

It remains to be seen how our Government will proceed under this new aspect of the Trent affair. If we accept from the Mexican officials such an apology as England accepted from us in the case of Mason and Slidell, the questions arising may be easily adjusted; and if Mexico, being now in a strait as embarrassing as we were in at that time, is as ready to take us on our own ground, there need be no great trouble. The precedents established in that celebrated case have strangely become round for new applications.

The Surratt Trial.

A letter from Washington gives the following statement of the condition and prospects of the case of Surratt now on trial:

Washington:

"The Government has got about half through with its witnesses for the prosecution in the Surratt trial. Thus far it has woven a pretty effectual net of evidence, showing the presence of Surratt in this city on the day of the assassination. It is necessary to sustain this to convict the prisoner on the indictment which finds him as a principal, and not as a accessory, in the murder of President Lincoln. The defence are fully confident of being able to prove a complete *alibi*. Indeed or this they are positive by competent, trustworthy witnesses who will demonstrate beyond a doubt, they maintain, that John Surratt was three hundred miles from Washington on the day of the assassination. A review of the evidence on the conspiracy trial shows that Surratt returned to Washington on the 3d of April, having a supply of money in gold. On the same day the news came of the fall of Richmond. When Weichman told him of it he said he did not believe it, for he had seen Benjamin and Davis in Richmond, and they told him that Richmond would not be evacuated.—Surratt left the same evening for Montreal. That was the last time Weichman saw him. Miss Anna E. Surratt also testified that she had not seen John since the 3d of April. If this had been his last appearance in Washington, it would have ended on the downfall of Richmond and the whole Confederacy, and the conspirators abandoned the abduction plot, he says, up the scheme and took no part in the new plan to assassinate.

But it is proved on his trial now that Surratt was in Montreal on the 6th, and left the hotel, especially for the New York train, on the 11th, and returned on the 18th, registering the name of John Harrison, and it is apparently proved that he was seen in Washington on the afternoon and night of the 14th, the night of the murder.

This makes him a party in the assassination, and this, with his mother's interview with him that evening, and with his journey to Surratsville that day to give Lloyd notice to have the guns and refreshments ready that night, which Booth and Harrold, in their course, called for, will probably remove from the minds of all who think this murder a crime, any doubts as to her complicity in the plot to do what was done.

It is well remarked that Surratt's movement to Canada, as soon as the downfall of the Confederacy had disconnected the abduction plot, and his return, and the prompt change of plan to murder as soon as he arrived, raises curiosity as to the persons he consulted with in Canada. It looks as if there were some directing personage there who was appealed to on this change of circumstances.

It has been stated to day to newspaper men about the Court House that one of the witnesses yet to be called by the Government was associated with Booth and Surratt in the conspiracy, and that he will testify to all of its details, which, it is said, embrace the plot to assassinate. In addition it can be stated that a confession made by the conspirator Payne on the night before his execution is on file in the War Department and will be offered in evidence. This is also said to directly implicate Surratt in the murder of the President. The witness, St. Marie, will testify, it is believed, that Surratt confessed to him in Italy that he was as guilty as Booth."

The eight hour movement in New York has begun to show symptoms of a decline. On Saturday evening, the Central Trade Union had a meeting, and was about to consider the propriety of taking some steps towards the enforcement of the law. Letters from subordinate unions, however, put a damper upon the whole matter. While generally asserting the justice of the law, they did not deem it expedient to endeavor just now to have it enforced. Of strikes most of the associations have had quite enough. Neither their own experience, nor that of workingmen elsewhere, had proved that combinations of this kind were of advantage to the workingmen. Some of the unions had come to the conclusion that reduction of hours means only reduction of wages, which is a result not to be listened to. So on the whole it was considered "not expedient to legislate," and it is probable that the subject will be dropped for the present, with constantly decreasing chances for its future consideration.

Judge Duvall of the Appellate Court of Kentucky has rendered a decision which will be the occasion of an overhauling of the Kentucky courts. A white man was arrested for stealing a sum of money from a negro. The only witness in the case was the negro himself, and upon his testimony the white man was convicted and sentenced to the penitentiary for a course of years. The case was taken up by the Appellate (Judge Duvall's) Court, and the judgment is reversed upon the ground that, according to the laws of Kentucky, a negro is not competent to testify against a white man—that striking aside and nullifying the Civil Rights Act, which declares explicitly that all persons shall have an equal right to sue, be parties, and give evidence in courts of law.

It appears that General Butler has been relieved from his position of president of the National Asylum for Disabled Soldiers, because the Comptroller of the Treasury has decided that he vacated the office by accepting that of a member of Congress. The clause of the original act that no director should be a member of Congress was indeed repealed after the election of General Butler to the House, but the Comptroller decides that this repeal simply removed a disability and made General Butler eligible, but did not restore him to the place, which he legally vacated by accepting a seat in Congress.

As another illustration of the advantage of having animals insured in the Hartford Live Stock Company, we understand that Earl Carpenter & Sons, who yesterday lost a valuable horse, as we supposed, by fever and glanders, will recover the amount of their timely prudence in insuring this animal in the above named company. Death by fever and accident cannot always be averted, but the loss ensuing therefrom may be made good by a resort to the advantages thus offered. *Boston Herald.*

The advantages of this kind of insurance are daily more and more appreciated.—Two persons in this city, Mr. Hazard and R. & M. Stoddard have recently lost cows that were thus insured. The company is doing a good business and pays its losses promptly.

A disease has appeared in Ireland, believed to be contagious, and called the "Black Death." The general features of the preliminary stage are lethargic condition, and sometimes purging and usually headache of unparalleled intensity, with incoherency.—Then comes the purple eruption, accompanied in most cases by great debility, and followed by collapse and death. The duration of the illness is of a threefold variety. In the first, where the period is reckoned by hours, one case was fatal in four hours from the commencement of the first symptoms; but the average is eighteen hours. The second variety includes from three to six days, from the first indication of indisposition to the fatal issue. The third variety, in which alone any recoveries have taken place, embraces a period extending to many days, and even weeks.

A gentleman in New Jersey, named Speer, cultivates the Portugal Sambucus, from which he makes an excellent wine, without the use of sugar or spirit, that is becoming celebrated among medical gentlemen in our large cities, and used in hospitals as a superior article. Physicians recommend it as an invaluable article for weakness and general debility. It is a very gentle stimulant, and at the same time a rich nutritive wine, possessing the virtues that make it valuable for weakly persons and general family use. *at this Season of the year.* Some of our doctors say it is superior to port or other wines.—*N. Y. Eve. Post.*

THE MASON & HAMLIN CABINET ORGANS. The amount of musical power which these instruments possess, the purity and beauty of each tone, and the great variety of effect which can be produced upon them, are remarkable, especially when they are compared with melodeons, which instruments they are rapidly taking the place of, and must supersede entirely, as soon as they become known. Nearly all artists of note pronounce them superior to all others, the finest instruments of their class in the world.

N. Y. *Day Book.*

The Presidential party left Boston at 8.30 yesterday morning for Hartford. Much enthusiasm was exhibited at Framingham. He was heartily received by a large assemblage, and a band of music played patriotic airs and bonfires were thrown into the cars.

GOOD TEMPLAR'S FESTIVAL.—This society which has been organized but a comparatively short time in our city, has increased in numbers rapidly and find it necessary to procure a hall for their meetings, which they are about furnishing preparatory to entering upon its use and possession. Though numbering some hundred and twenty-seven members they are still obliged to seek the sympathetic hand of encouragement from their fellow citizens, as among their members they have few or none who are rich in this world's goods to a degree that will enable them to give to the objects of the society in a manner commensurate with their wishes or with the deserving excellence of its purpose. They, therefore, appeal to the public with clean hands and stout hearts knowing that their object is a deserving one and must commend itself to all who are possessed of the least philanthropy or desire for the welfare of themselves, their own, or their neighbors. The organization is founded upon the one principle of total abstinence from intoxicating beverages, whose free and unrestricted use has caused the ruin of millions, and, which, at this moment, is the skeleton in many a household in our own fair city.—Indeed, the reality of the sad picture could only be portrayed by one gifted with the power to look with the eyes of a seer through the coverings of every roof-tree and witness the mysteries—the fearful secrets—of every household upon whose sacred hearth-stone rests the terrible blight of the curse of intemperance.

The Good Templars, then, whose object is to attract all classes, particularly our young men, from the sad paths of demoralization, into pleasant social gatherings of a healthy kind, into which they can have access upon the sole condition of a persistent fidelity to the practice of total abstinence from all that can intoxicate, are, therefore, certainly worthy of consideration and encouragement. It is very true that a young man may be temperate without taking a pledge or uniting with any such organization, but every parent must feel and acknowledge that if he is to be on either extreme, that of total abstinence is at least a perfectly safe and *the only sure* one, and might to rejoice, and has reason to rejoice when he sees him join himself to an organization founded upon the cardinal virtues of temperance and fee-totalism. Here, at least, he is safe; and if not, the place, every parent is moral by a most sacred duty; is not every citizen bound by every principle of philanthropy and patriotism; still is not every christian bound by the most solemn obligations of Christian charity and benevolence, all alike, without respect of creed or party, to lend a helping hand and a God-speed to those who are laboring solely for the elevation of their sons and daughters above the most blighting influences that weather their households and blast their fond hopes? The members of the Order feel that their efforts are not without appreciation and they may be excused from a charge of pharisaism if they say boldly that they also feel that they are not without some just claims upon the active sympathies and cooperation of parents and of all well disposed people of all classes and conditions and beliefs.

In regard to the festival this evening, they have but a short time to notify the public, but they hope to make further arrangements than they are able to announce today to render the occasion an attractive one.

All members of the order and all their friends of a good cause among the public generally, who feel disposed, can aid the cause by sending donations of cakes or flowers to the Armory Hall at all hours during this day, where a committee will be found ready to receive them; or by sending contributions to the chairman of the Committee of Arrangements, Sheriff Lake, at his office at the State House. See advertisement.

FOURTH OF JULY.—Now that the Presidential *fetes* have transpired and passed, we can afford to turn our undivided attention to the proper celebration of the approaching return of our great national holiday and anniversary of our birth as an independent and free republic among the nations of the world. The action of our city, though quite liberal when taken, was yet delayed to a date a day that some of our military companies, who receive more or less invitations from other portions of the State every year at this time, had accepted invitations this year, under an impression that there would be no observance of the day in Newport. Still, with the amount appropriated and what military we can be induced with on the occasion, if there be a hearty cooperation all round, and a little good will among those appointed to arrange matters, as there doubtless will be, as there are many Camera enterprise and energy in all and we can get up a celebration that will be worth saying at home for and that will prove a source of satisfaction and pleasure to all concerned. Indeed, why can we not do in every respect as well as our neighbors? Other places around us display a sufficiency of resources within themselves and we see no reason why we should not do so. Newport is able, is kind in each to contribute. We know, may—only the right spring need be touched to bring out the resources. It will play. That is all that is needed, we are most fully persuaded.

Apropos of this matter we would suggest here the inquiry that has been made by those who seek to know and who are practical men—We have, now in force a fire department of which we are justly proud, of those be invited to form a part of our procession. What could we have in the display that we should feel more inclined to witness? Then, too, there are our textile companies. Can they not as well as those of Fall River or any other place, do something in honor of the day, and at the same time lend some help to their own interests? We believe, without a doubt, that if the various trades and business men are invited to unite with us in this celebration all trades will be found represented in the procession in a manner that will add greatly to the interest of the day. We, therefore, most respectfully, suggest to our excellent committee of arrangements that the firemen and trades be invited to join in the celebration on Thursday next, fully believing that they will respond most satisfactorily and promptly and that we shall have a day among ourselves and of ourselves that will honor the occasion and our city as well. *Gentlemen, please take notice.*

THE PEAK FAMILY BELL RINGERS.—A respectable audience greeted these performers each evening, at the Academy of Music, and were well repaid for their attendance. The performances were of a highly pleasing character; the music of the bells had a charming influence over the hearers; and the harmony of the stringed instruments and bells combined was peculiarly fine. One is pleased, in listening, with the apparent simplicity of character of the performers with which the simplicity of the music fitly corresponds. Also, the correctness of time with which the music is performed on the bells, the sweet simplicity and activity of Miss Lizette, and her charming voice, the fine bell solo performances of Master Eddie, the harp solos of the harpist, Whiteomby, the tenor of Lavalée and the good management of the whole concert were pleasing features of the occasion. Sol Smith Russell has the comic element in perfection, and was the favorite of the hour with many, who seemed to desire to keep him before the audience all the evening. He was called out again and again, until we felt like suggesting that there was a little too much of him. Some other pieces were encored.

AMERICAN STEAMBOAT COMPANY.—This company, with their staunch and elegant steamers *City of Newport* and *Bay Queen*, will dock up on their regular summer arrangement of two trips a day and excursions to and from Providence early next week.

The steamboats have both been thoroughly overhauled, repainted, and put in the most complete order for their summer's work. They will be officered as last year, namely: *City of Newport*, Captain, George H. Kelley; Clerk, Josiah S. Bliss, *Bay Queen*, Captain Samuel Allen; Clerk, Nathaniel Hallet. The stations on both boats will be as last year, also, under the charge of Mr. George W. Hill, than whom no man knows better how to cater for the human appetite, or set a more liberal table for passengers wishing dinner or supper after leaving Newport or Providence, will be amply accommodated on board either of the boats on application to Mr. Hill.

CONFERENCE.—At the New England Conference of the African Methodist Episcopal Church, held recently in New Haven, Rev. Lewis S. Lewis was reappointed pastor of the Spring Street Church in this city.

Hoff's Malt Extract.

WHILE the half-starved body of the whole world is crying out for the Peruvian Bark, Dr. Hoff, of Vienna, has discovered a substitute in the Malt Extract, which, by a process known only to himself, he has prepared from the Bark, and which, in the hands of Dr. Hoff, is now administered with the greatest success in the cure of Fever and Ague, Dyspepsia, Nervous Debility, Want of Appetite, Want of Sleep, Want of Strength, Want of Flesh, Want of Blood, Want of Life, and all diseases where a tonic is required. Dr. Hoff's Malt Extract Beer is the best tonic known, and is recommended by the faculty for its purity and strengthening properties

Fourth Annual Fair

—OF THE—

New England Agricultural Society,

IN CONNECTION WITH THE

Rhode Island Society for the Encouragement of Domestic Industry,

ON THE GROUNDS OF THE

Narragansett Park Association,

CRANSTON, NEAR PROVIDENCE, R. I.

ON TUESDAY, WEDNESDAY, THURSDAY AND FRIDAY,

September 3d, 4th, 5th and 6th, 1867.

THE PREMIUM LIST WILL AMOUNT TO NEARLY

$10,000.

ARRANGEMENTS have been made with the various Railroad Companies to run their cars, containing Stock, &c., directly to the Fair Grounds.

There are very decided attractions this year for Horses and Live Stock, and one of the best Mile Tracks for fast trials in the world.

A large number of the most celebrated horses in the country have been promised as competitors for the very liberal premiums that will be offered, and the best breeders of full blood cattle and horses have promised to make this the finest and most extensive exhibition of Live Stock that has ever been held in New England.

A detailed Programme of Premiums, &c., will be distributed at an early day.

GEO. B. LORING, of Salem, President.

DANIEL NORTHAM, of Boston, Secretary, of the New England Agricultural Society.

WILLIAM SPRAGUE, of S. Kingstown, R. I., Vice President.

WM. R. STAPLES, of Providence, Secretary, of the Rhode Island Society.

THE NARRAGANSETT PARK,

Which has been purchased and laid out by Col. A. Ross Sprague, is located some of about eighty acres of land, beautifully situated in Cranston, near PROVIDENCE, R. I., and accessible both by Steamboat and Horse Cars. The grounds are surrounded by a substantial and ornamental fence, twelve feet high.

THE GRAND STAND

Is unsurpassed in architectural beauty by any structure for similar purposes. It contains three hundred and fifty feet in length, and contains Drawing Rooms for Ladies and Gentlemen; Refreshment, cooking apparatus attached; Committee Rooms; Exhibition Rooms; Club Rooms; and accommodation, under roof, for nearly one thousand persons.

THE STABLES,

Very commodious and airy stables have already been erected, and others, together with wood and other sheds for all live stock that may be received for exhibition, are in process of completion.

WATER,

An ample supply of pure Spring Water will be provided for every department, and the best of hay, grain, &c., &c., for sale.

THE TRACK

Has been constructed on the most improved plan, and for the superiority of its foundation, is pronounced by the best judges to be in all respects superior to any track in the country.

NEW AND CHOICE SHEET MUSIC.

By John P. Ordway, M. D.

SOMEBODY'S DARLING SLUMBERS HERE.

Song and Chorus. 30 cts.

This beautiful ballad was suggested by a visit to the battle ground of Gettysburg.

STILL HE KEPT THINKING.

Song and Chorus. 30 cts.

A humorous ballad, just flying after the battle of the Wilderness, said to be a fitting sequel to "Pass in Review" and "Keep thinking of the dear ones at home."

COME, DARLING, COME TO THE SPIRIT LAND.

Song and Chorus. 30 cts.

I'm in the spirit land, my child,
Happy in thinking of you;
I'm with you in the spirit, darling!
Angels are with you too.

SOMETHING SWEET TO THINK OF.

Solo and Chorus. 30 cts.

Something sweet to think of, in this world of care,
Though our friends have left us, they bright spirits are;
Something sweet to dream of, dark! the angels say
"Still them not back again, they are with you every day."

The above beautiful pieces are some of Dr. Ordway's best compositions, and are having an immense sale. Each and every one is sent free of postage. Copies sent postpaid. OLIVER DITSON & CO., Publishers, Boston.

LEA & PERRINS'

Celebrated

WORCESTERSHIRE SAUCE

Pronounced by Connoisseurs

"the Nonpareil of Sauces."

"Daily Good Sauce,"

AND APPLICABLE TO EVERY VARIETY OF DISH

EXTRACT of a Letter from a MEDICAL GENTLEMAN at MADRAS, to his Brother at WORCESTER, May, 1861.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and, in my opinion, the most palatable and wholesome Sauce that is made."

The success of this sauce has induced unprincipled dealers to supply their own to Spurious Compounds, the Proprietors therefore deem it necessary to request for the future the purchasers will see that the names of LEA & PERRINS are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

THE INDIAN WAR.

THREE MEN KILLED.

ST. LOUIS, MO., June 24. A dispatch from the present terminus of the Kansas Pacific Railroad says the Indians have driven the grading parties of the railroad into Fort Harker, also that two railroad men and two residents were killed near Bunker Hill, twenty miles west of Fort Harker, on Saturday, and a considerable amount of stock stolen and driven off. Efforts were being made to procure arms for the Railroad employees, many of whom have already left their work, and it was feared all will leave unless they are better protected.

LONDON, June 25. Victor Hugo's address to President Juarez of Mexico is a powerful appeal to save the life of Maximilian, saying the most fitting punishment would be the mercy of the Republic.

ROME June 25. Twenty thousand priests and four hundred bishops are here from all parts of the world, and crowds of visitors are daily arriving, to take part in the great religious spectacles. Bishops from the United States are holding a council. Great preparations are being made for the ceremonies, which are to take place on Saturday. In the evening of that day St. Peter's Church is to be illuminated.

Cholera has broken out in this city, and reports state that the epidemic has made its appearance in the Island of Sicily.

FLORENCE, June 25. The feeling in Italy against the clergy is very bitter. The festival of St. John, the Patron Saint of Florence, took place Monday. The people did not take any part in the festivities, because the priests refused to celebrate with religious ceremonies at the national festival two weeks ago.

WASHINGTON, June 26. The Judiciary Committee did not get a quorum to-day.

Reports from all points of the South received here, say that crops have been seriously injured by the late severe rains.

About a dozen Congressmen have arrived.

NEW YORK ITEMS.

The Health officer of the port gives notice that vessels from New Orleans will hereafter be boarded in the lower bay, and that steamers bringing emigrant passengers will be required to anchor immediately upon arrival at quarantine.

Mr. Lord, upon whose property the famous Lord Bond robbery was committed, Tuesday received from an unknown source $1,000,000 worth of bonds stolen from him. This leaves a deficit of only $150,000 still missing.

The Grand Jury at Albany on Tuesday found a true bill against Gen. Cole, charging him with murder in the first degree in killing Mr. Hiscock.

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Receiving the main entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that no necessity can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treating all Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers,

Young and escape Impositions of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

kindly refers to Professors and respectable Physicians, many of whom consult him in difficult cases, because of his acknowledged skill and reputation, attained through long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

Some noble hand add to your suffering by being deceived by the lying lowers, false representations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases and care not to their cure. Some exhibit forged Diplomas or Impositions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Devil, how obtained, is known; not only assuming and adopting the names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians from abroad. Neither be deceived by

QUACK NOSTRUM MAKERS,

Who, to take out statistics and references, and procure the Diplomas of Deceased Physicians, who cannot be traced or contradict them; or who, besides, to conceal their imposition, copy from Medical books and Medical Journals articles on the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Elixirs, Syrups, &c., most of which, if not all, contain Mercury, because of the ancient belief of its curing everything," but now known to kill more than it cures, and if not killed, constitution ruined for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Though the ignorance of the Quack Doctor, known to every other intends, he will impose on Mercury, and cause to kill his patients by Pills, Drops, &c., so the Nostrum Makers, equally ignorant, will do for inexperienced Inventors, Specific, Available, &c., by selling upon its cure the world, as for a hundred, it is impossible for a person to say the disease, the kind, but, at most nothing cures of the hundred, some of whom die, others grow worse, and seek a cure elsewhere, and suffer for months or years, until, if ever cured, if possible, by competent Physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to every Quack Doctor and Nostrum Maker, yet, regardless of the Well and Ill of other fellows, there are those who will publish to the world, contradictory to the common sense of the intelligent, or that it is contrary to the laws of Nature, or that the "medicine" may be sold for "ten cents or thirteen or twelve dollars" or "a dollar and a half" may be obtained for the Nostrum. It follows that they place the dollars, and wickedly spend large amounts for expressions with quackery.

DR. L. DIX

Answers all letters or calls. Communications sacredly confidential, and all may write or live with the assurance of a speedy relief, whatever may be the disease, condition or situation of sex, married or single.

Medicines sent by Mail and Express to all parts of the United States.

Kingsley's Original Hair Reviver

CHANGES GRAY HAIR. Promotes its growth. Prevents its falling. Keeps it moist. Be sure and try it.

A FEW HOME RECOMMENDATIONS.

From Proprietor of Payson's Indelible Ink.—"Your Reviver gives the Hair an appearance of renewed youth, and leaves it healthy and soft."

From Prof. Hitchcock, Amherst College.—"I have been trying your Reviver, and am satisfied that it imparts a dark color to Gray Hair."

From W. H. Webster, Clerk of S. L. Hospital.—"I find it all you claim for it, and will be sure to sell it."

From the Scientific Republican.—"One of the best Hair Restorers known."

Prepared by C. B. KINGSLEY, Northampton, Mass. Sold by Druggists and Merchants. Principally Boston. GEO. C. GOODWIN & CO., & REED, CUTLER & CO., Wholesale Agents. Boston.

DIRECTIONS FOR

Making Your Own Soap

WITH YOUR WASTE GREASE.

—BY—

Penn'a. Salt Manufacturing Co's.

RENOWNED

SAPONIFIER!

(Patented 1st and 8th Feb. 1859)

OR

CONCENTRATED LYE.

Two Cents for Every pound of Soap.

DIRECTIONS:

Dissolve one box of Lye in 5 gallons (distilled or rain water is best), in an iron pot. Melt in another pot or pan, of clean fat or grease. Take off the fire, and pour the melted fat into the dissolved lye, and keep stirring till the whole becomes well mixed. Let it stand a few days. Now cover up, and set in a warm place over night. Next day cut up in small pieces, and add one pint of water, and heat with a gentle heat until the soap is all dissolved, and then pour into a tub to cool. When cold cut into bars, which will be fit to use in about 10 days.

BEWARE OF COUNTERFEITS.

Be particular in asking for Penn'a Salt Mfg. Co's Saponifier.
